ABOUT THE FESTIVAL

The FP Arts Short Film Festival was established to foster and celebrate international filmmaking, aiming to create a vibrant film hub in our community. We want people to get excited about cinema again, and so far the success of our previous events have proven that our local community have had a positive experience and return on a regular basis.

We host 10 screening events throughout the year, culminating in a grand three-day annual event in May 2025.

Our festival places a significant emphasis on local and international participation, inclusivity, and the discovery of new independent talent. We are committed to supporting visionary films and uniting diverse elements of filmmaking and storytelling, making it a truly global platform for creativity and talent.
